

**Winter Light Exhibition 2018 at Ontario Place  
November 2018 to March 2019**

Submission Period Start: June 22, 2018, 12:01AM EST  
Submission Period End: August 7, 2018 at Midnight EST

**OPEN CALL:** Ontario Place is seeking the imagination and creativity of Ontarians to take inspiration from our natural winter landscape and submit a proposal for the Winter Light Exhibition. Submissions for illuminated sculptures that project, shape, transmit, apply, transform or contain light are now being accepted.

**The curatorial theme is *Disruptive Engagement***, mimicking Ontario's wintry landscape of brisk wind, ice and extreme temperatures. Utilizing creativity, innovation, light and discovery, creators from all artistic streams are invited to submit new or pre-existing pieces that meet the curatorial theme and keywords. Taking place on the West Island of Ontario Place, featuring both urban and natural elements, there is opportunity for works of varied styles and sizes. Applicants are encouraged to explore and combine unconventional materials and methods that respond to light in different ways. Evaluations will be made based on artistic merit, experience, viability and consistency with the curatorial theme.

With a mandate to provide talented and creative people in the Province with the opportunity to exhibit their works and their abilities, the Winter Light Exhibition hosted by Ontario Place continues its momentum from last year's exhibition which revolved around the theme of winter light.

**Curatorial Keywords:** Light, Innovation, Exploration, Imagination, Culture and Winter.
